SD will also forward copies of the walks to AE (who will check Gilstead) and CS (who will check Crossflatts). CM will forward a copy of the remaining walk to AB to check and feedback. All those checking walks are requested to take a couple of interesting photos so that AE can draw some sketches from them. This project is aimed to be completed by mid-October if possible. It was confirmed that no maps are required and that the Fred Hoyle background information will be kept separate from the walk information and added (with number references to the section of the walk) at the end. There will also be simple sketch maps and Ordnance Survey references/grid references to be added to the leaflets.</p>	SD CS CM AE AB
